ALTON

Dal carattere scultoreo, la poltrona ALTON di David Lopez Quincoces si caratterizza per la struttura in metallo verniciato antracite che ne definisce la forma a semicerchio ad accogliere la sagoma asciutta dello schienale caratterizzato dalla particolare lavorazione sartoriale in corda di cuoio riavvolta a mano, nelle versioni naturale invecchiato e testa di moro. A creare un raffinato contrasto stilistico, il rigore delle linee esterne si fonde nell'avvolgente seduta, con rivestimento in tessuto o pelle. Un morbido cuscino garantisce massimo comfort di seduta.

With its sculptural aesthetic, the ALTON armchair by David Lopez Quincoces has an anthracite-coloured, painted metal structure, distinguished by its semi-circular shape and the slender leather back, with sartorial, hand-wound leather accents, proposed in natural, antique-finish and dark brown. The essential lines of the exterior merge with the enticing seat, which can be upholstered in fabric or leather, creating a refined stylistic contrast. Meanwhile, the soft cushion ensures maximum comfort.
